Welcome to Backyard Outfitters, Inc. With our headquarters located just outside of historic Franklin, TN, we are the premier portable building supplier for Tennessee, Virginia, West Virginia, Pennsylvania, New York, Georgia and Maryland. With 11 manufacturing facilities, our buildings are built with the highest quality materials and superior Mennonite craftsmanship.

Our Founder

Jon Coggins is the President and CEO of Backyard Outfitters LLC. Jon comes from a long line of builders and businessmen in his family. He received his formal education from Georgia State University in Atlanta, GA. After a successful collegiate basketball career, Jon’s entrepreneurial spirit drove both he and his wife Pam to form what would become Backyard Outfitters Inc. They reside in Franklin, TN and have two beautiful daughters.

Our Family

The members of the Backyard Outfitter family include builders, painters, roofers, drivers, installers, salespeople, office staff, and dealers—all working together to fulfill the company’s mission. Our company places a high value on family and we want to treat all of our employees, dealers and customers like family. Meet any of our employees or dealers and you will feel like you have “come home.”

Our Philosophy

Our mission, simply put is...to provide a superior building for a spectacular price. We offer our customers the option to either Buy or Rent-To-Own a storage building. By offering multiple purchase options, we are making the process of buying a portable building a very easy one. We also do not perform any credit checks, so even if your credit isn’t great, you can purchase one of our portable buildings. Your next building can be delivered and setup for FREE within 30 miles of one of our dealerships. If you are in the market for a backyard building, backyard shed or a backyard cabin, then Backyard Outfitters can help the find the right product at the right price. Call us today and we will put you in the perfect backyard storage solution.
I. Level Ground

One of the most important things to consider is WHERE your future building is going to be placed. It is essential that your building not be on a slope due to the possibility of sliding. It is also important to prep the ground before the building is placed. If there are any tree stumps or large rocks, those will need to be removed.

II. Not In A Low Spot

Low spots on your property will often be the place where water will pool. If your building is placed in a low spot where water pools, eventually that building will sink over time. Also, if water pools up under a building and not run off, it can be a breeding ground for mosquitoes.

III. Access To Your Property

One thing to consider is whether or not a barn can be placed on your property at all. You will have to have a large enough opening for the delivery truck to be able to physically place your building. Without sufficient access to your property, some builds simply won’t be able to be placed there. In those cases, we offer a “build-on-site” option to fix that problem!
3 Most Popular Buildings

The Lofted Barn

The lofted barn is the best selling building we make. It provides a great entry point while still offering tons of room. The lofted area offers lots of storage space and can be outfitted with a door for easier access. The lofted barn comes in a treated, painted and Wilderness™ finish.

The Utility Shed

Utility Sheds are a great all-purpose building that feature a gable roof design. The utility shed comes in sizes ranging from 8x8 to 14x40 with standard 6’3” walls or the optional 8’ walls for an extra $100 on any size building. We offer the same exterior finishes on all our buildings: treated, painted, or wilderness with your choice of a metal or shingle roof.

The Deluxe Cabin

Our deluxe cabins are distinguished by the addition of a front porch to either a lofted barn or a utility shed. If you are looking for the functionality of a storage barn, but the looks of a cabin, our deluxe cabin might be for you. Cabins can be used as a playhouse, outdoor entertaining space, man cave, office area, camping/hunting building, and more.
